Since initiated in 2018, Friends of the Foundation have provided crucial operational support to the Central Valley Community Foundation (CVCF).

**We love the Central Valley and are proud to serve!**

**Support from Friends of the Foundation allows CVCF to lift up the Valley by:**

**Attracting Funding**

CVCF's ability to capture state and national funding to disburse in our region is unparalleled. Since 2018 CVCF has attracted over $80 million from private foundations and the state of California to support education, economic development and neighborhood improvements.

**Connecting Community Resources**

In response to the pandemic, CVCF tied essential resources together, allowing organizations that would have otherwise acted independently, to serve the community at greater capacity.

**Cultivating Investment Opportunities**

Given its unique role, CVCF organizes community stakeholders to act in unison, creating the structure needed to support specific funding opportunities, which encourages additional investments.

**Leading Transformation**

Fresno DRIVE, led by CVCF, has attracted national attention for its work in creating an inclusive, vibrant, and sustainable economy for residents in the greater Fresno region.

This is the role CVCF is made to play in our community and the work is only possible because of you. There is much more to do! We hope you will consider renewing your Friends membership in 2022.
